TMD USA makes senior appointment to further boost on-going expansion program

TMD USA, supplier of leading edge, world class microwave and RF products, based in Baltimore, Maryland, has appointed Mike Ryan to the new position of Senior Account Executive. With his in-depth knowledge of selling direct into prime contractors and the US government, Mike will be playing a major role in TMD USA's ongoing market and customer base expansion program into the defense, homeland security and scientific fields.

Said Tom Curtin, Vice President, Sales and Business Development TMD USA: "With this new appointment we will be reaping the benefits of Mike's extensive experience – spanning more than 35 years – in the microwave aerospace and defense industries, working for elite companies that include Teledyne, W.L. Gore and Aerodyne Controls".

Mike Ryan's broad-based experience also covers engineering, designing, patenting, marketing and selling new products and custom solutions to OEMs, government organizations and consumer markets. In addition, Mike has widespread partnering involvement with firms and consultants to enhance profitability and forge strong client networks.

Mike Ryan: 'Looking forward to engaging with customers'

On his new appointment, Mike Ryan commented: "I am looking forward to engaging with customers to further enhance and strengthen TMD USA's growth strategy and marketing presence in our North American market, backed by an outstanding portfolio of microwave products that include travelling wave tube and instrumentation amplifiers, microwave power modules, high voltage power supplies and – our newest offering – advanced radar transponders".

Continued Mike: "I am also delighted to be joining an established company that not only offers an outstanding range of advanced products, with proven worldwide credentials, but can also claim an unbeatable design and manufacturing heritage in the microwave field that goes back 75 years!"

TMD Technologies, LLC, USA

Leader in scientific, professional microwave and high-power RF innovation

TMD Technologies, LLC is the US subsidiary of UK company TMD Technologies Limited. Established in Baltimore, Maryland, TMD USA provides complete technical and commercial support to TMD's US customers and offers a comprehensive product repair center.

The US Sales and Business Development team is fully trained and actively involved in supporting TMD's entire product line-up, including TWTAs, MPMs and HVPSs along with new business development in the United States.

TMD Technologies Ltd, UK

TMD

With a heritage dating back to the 1940s, TMD Technologies Limited (TMD) is a world class designer and manufacturer of professional microwave and RF products. At the company headquarters in West London UK, it produces specialized transmitters, amplifiers, microwave power modules (MPMs), high voltage power supplies, microwave tubes and transponders for radar, EW and communications applications. It also produces a range of advanced instrumentation microwave amplifiers for EMC testing, scientific and medical applications. All TMD's portfolio of high-power microwave products are available to customers in the USA.
