## ***PRESS INFORMATION***

### **TMD Technologies LLC secures \$6.9M transmitter radar contract**

TMD has been awarded a competitively bid contract to supply X band transmitters to a prime contractor in support of a US Military ground mobile platform. Further details are unavailable.

TMD Technologies USA, is a leading supplier of high-power TWTAs, ruggedized amplifiers, Microwave Power Modules, and HVPS (high voltage power supplies) used in radar, EW/ECM/EA, and other applications. Our specialty is providing innovative, custom solutions addressing the most challenging military applications on platforms where technical precision, reliability and SWaP characteristics are critical.

Whether the host platform is airborne, mobile, space, ground-based, ship-board, or sub-surface, TMD utilizes a modular design approach with multiple power and RF frequency options to quickly meet our customer's most demanding high-power needs. TMD maintains a certified service and repair facility in Baltimore, Maryland to support our customers with factory trained technicians using the latest lab equipment.
